LANGUAGES

- **French :** language of study or native
- **English :** level B1

SKILLS

- HTML
- CSS ou SCSS
- Javascript
- ReactJS
- NodeJS
- MongoDB
- Git and GitHub
- Visual Studio Code
- Using Notion
- SEO Optimization and debuging
- Using Lighthouse for optimization and WAVE extension for accessibility
- Project management Mastery of the office suite (Word, Excel and Power Point)

HOBBIES

- **Sports :** Tennis, Football and F1 Racing
- **Video games:** FIFA, F1 racing
- **Web development**
- **Reading :** passionate about science fiction
- Japanese manga and anime
- **Web :** searching for information on the web (news, novels, courses, tutorials, YouTube, Google)

👤 ABOUT ME

Engineer in Industrial Maintenance and Production, with a Master's degree in Electronics, Electrical Engineering and Automation, I am currently retraining to become a web developer. After completing a comprehensive training course at OpenClassrooms, I acquired solid skills in web development, both in Front-End and Back-End. My technical background has allowed me to develop an analytical mind and methodical rigor, essential assets for designing reliable and innovative digital solutions. Passionate about code and new technologies, I am motivated to combine my technical knowledge and development skills to actively contribute to digital projects.

💼 PROFESSIONAL EXPERIENCES

To date April 2024	**OpenClassrooms Training** | OpenClassrooms | France **Achievements :** validation of professionalizing projects related to different web technologies such as HTML5, CSS3, JavaScript, NodeJS, MongoDB and ReactJS
